

FILL RITE WATERLINE EXTENSION

NEW HAVEN, MO

Year: 2021

Client: City of New Haven

Project Manager: Kent Vedder

Supervisor: Rick Rohlfing

Contact: Peter Otten, Public Works Director

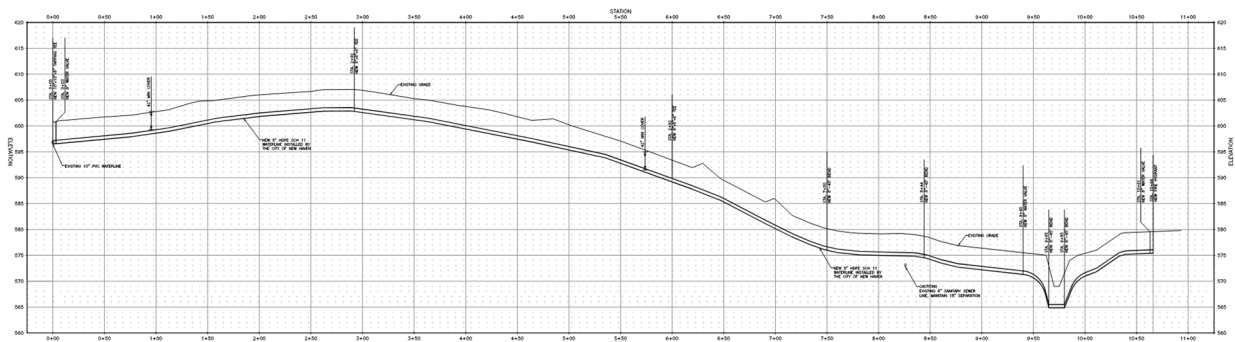

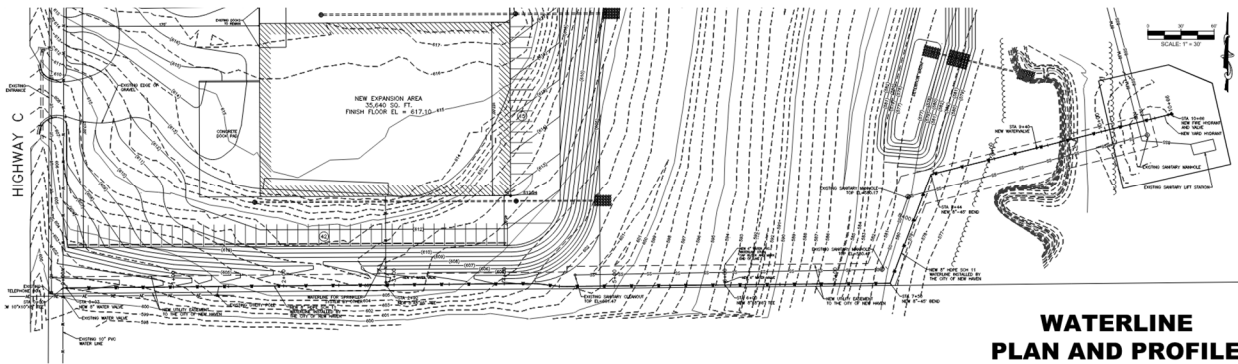

101 Front Street

New Haven, MO 63068

(573) 237-3572

The scope of the project included installing 1066 LF of 8" HDPE schedule 11 waterline to serve the expansion of the Fill Right building, provide water services to future developments, and provide water to the City of New Haven's lift station. As part of the scope a utility easement was also made up for the City of New Haven.

DNR application and supporting documents were prepared by BFA and submitted.
