

ROAD WIDENING, SIDEWALK, AND STORMWATER IMPROVEMENTS CAPE GIRARDEAU, MO

Year: 2014-2023

Client: City of Cape Girardeau

Phone: (573) 339-6300

Contact: David Whitaker, P.E.

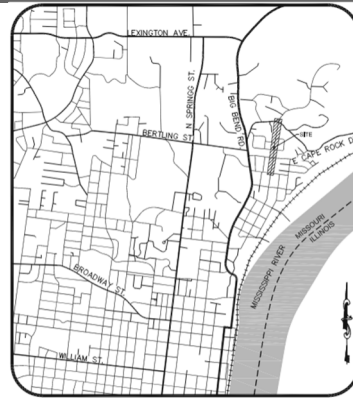

Project Manager

44 North Lorimier

Cape Girardeau, MO 63701

Project Overview

The City of Cape Girardeau is widening N Main Street from Roberts Street to Cape Rock Drive. The City will be doing a full depth removal and replacement, while adding additional width to the road, sidewalks, and Curb & Gutter. The City will also be upgrading and improving the stormwater infrastructure in the area.

Flared End Section
RCP Pipes

BFA's Scope of Work for this project includes surveying/field work, easement documentation, and plan design. BFA has also coordinated with sub consultants for the geotechnical investigation and retaining wall design. Public meetings were attended to present schematic designs and answer questions. SHPO clearance was also obtained from DNR.
